Tanya,

Was the additional sampling completed in Fall 2014? Is the Baseline Eco Risk Assessment still anticipated for completion in Spring 2015? Is there any additional information regarding progress at the site that you can provide?

Regards,

Hello Sandra,

Thank you for your continued interest in the Rolling Knolls Landfill Superfund site. At present, EPA is working with the PRP Group to perform some additional sampling at the site to address data gaps. This sampling is anticipated for fall 2014. The results of the fall field sampling will assist with the development of the Baseline Ecological Risk Assessment which is anticipated for spring 2015. Once these steps have been completed and the data gaps have been resolved, the remedial investigation and feasibility (RI/FS) reports can begin.

Please feel free to contact me regarding the site if you have any additional questions.

Regards,

Tanya

Tanya,

Hi Tanya. I have been checking in around every six months. Has the RI/FS been completed for the Rolling Knolls Landfill? If not, is there an estimated timeline for completion?

Regards,

Sandra Moulton

Sandra,

EPA is currently conducting the RI/FS and it has not been completed.

Ms. Moulton,

Thank you for your continued interest in the Rolling Knolls Landfill site. The date for the RI/FS completion has not changed and the investigation is on-going.

Regards,

Tanya

We last discussed this site in February. I'm just checking to see whether there has been a change in the estimate for completion of the RI/FS. Can you tell me whether it is expected in the first half or second half of 2013?

Thank you for your response in advance.

Hell Ms. Moulton,

Thank you for your interest in the Rolling Knolls Landfill Superfund Site. The Remedial Investigation/Feasibility Study has not been completed. The earliest timeline for completion is

2013. Additional sampling may be required to complete the remedial investigation.

Please feel free to contact me in the future if you have any additional questions regarding the site.

Regards,

Tanya

Tanya,

Has the Remedial Investigation/Feasibility Study for the Rolling Knolls Landfill (NJD980505192) been submitted? If not, do you know when it is anticipated to be submitted to EPA?

Tanya,

Has the Remedial Investigation/Feasibility Study for the Rolling Knolls Landfill been submitted? If not, do you know when it is anticipated to be submitted to EPA?

Can you tell me general results of the background sampling completed in December 2008, pilot sampling program, and drum area investigation?

I left a message for you yesterday regarding the RI/FS. Feel free to call or email me.

Regards,

Sandra Moulton | Moulton Environmental, Inc.
